

IMAGE CONSULTANT & PERSONAL SHOPPER

Who I am

My name is ENRICA AGLIETTO and, thanks to the professionalism I have acquired in 25 years' experience in the world of fashion together with good taste and imagination, I shall lead you in all your purchases and improve your image.

Let me introduce myself with a few words – I love beautiful things and I seek them.

On 8 December 1987 I opened my beauty salon, thus starting an important path that led me to give shows all over Italy and abroad, work for specialised magazine covers, make posters, photographic services, organize fashion shows,

present important hairdressing and fashion events.

I then became a member of the H.C.F., the most important hairdressers' world association where for five years I was Artistic Director.

In 1996 I further extended my business by creating a new area in my salon devoted to clothing, bags and fashion accessories.

As image consulting, I carefully examine each aspect by giving valuable advice and tips so that each woman can find the style that suits her best and follow it with care in clothing, accessories, make-up, and – last but not least to enrich and enhance her own image – hairdressing.

In 2000 I turned my salon into an atelier and started working as coordinator of photographic services. I also started working as consultant with G3 until the opening of the Academy.

The year 2002 was marked by the great joy of CHRISTIAN's birth. Following my son's birth I had to slow down my pace a bit and I took advantage of this by reading books and magazines about etiquette, colorimetry, total wellness, posture and gait, and acquiring all information I needed to recommend a high level equipment for localized slimming, toning up and TENS.

Thanks to my frequent trips to Milan, I found I had a new great passion – that of being a personal shopper. How great!!!!!! It was precisely what was on my mind and I took the necessary steps to add a certificate to my experience.

After so many years in the world of fashion and image and constantly working with great competence to the exclusive aim of satisfying my clients, there are now many people who trust me and prefer to shop by order. I accompany to the shops that are more suitable for their needs the clients who do not like shopping by themselves and prefer to be advised by an expert or who are in our town for a short time only and wish to make the most of it by shopping.
